You can use comparison operators (<,<=,>,>=) with values of the same type.
3. To refine your search query, select one or more of the search options: *Word Stemming, Sounds Like, Thesaurus, Match Case, or Proximity.*

Note: The Search feature is available only if your Adobe Acrobat Reader installation includes the Search plug in, which is available in Windows, MacOS, and some UNIX platforms. For more information go to [www.Adobe.com](http://www.Adobe.com)
