## TELEPHONE DIRECTORY

NOVEMBER 1929

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

## HOW TO USE THE TELEPHONE

### OBTAIN CORRECT TELEPHONE NUMBER

ALWAYS obtain the correct telephone number from the current issue of the telephone directory.

### HOW TO PRONOUNCE TELEPHONE NUMBERS

You will find it helpful to pronounce telephone numbers as follows:

273—say "Two (pause) Seven Three."

4418-J—say "Four Four (pause) One Eight J."

2100—say "Two One (pause) Hundred."

3000—say "Three Thousand."

### HOW TO SPEAK

Speak slowly and clearly in an even tone of voice directly into the telephone with the lips just clearing the mouthpiece.

In some Central Offices, not equipped for giving the ringing signal, a report will be received from the operator when the called telephone does not answer, such as "They do not answer."

### TO RECALL THE OPERATOR

If you wish to recall the operator on an existing connection, move the receiver hook slowly up and down until the operator answers; do not move the hook rapidly as this may result in the operator not receiving the signal.

At telephones where the operator is signalled by turning a crank, the operator may be recalled by hanging up the receiver and turning the crank again.

### REFUNDS FROM COIN BOX TELEPHONES

At coin box telephones, a charge will not be made by the operator on local calls when the called line is busy, the party does not answer, or the call is not completed for some other reason. In addition, a charge is not made on calls where the called telephone number has been changed, unless it is desired that a call be completed to the new number, in which event a charge will be made.

### THE BUSY SIGNAL

The busy signal is a "buzz-buzz-buzz" sound, at one second intervals, which informs you that the called line is busy. When you hear this signal, hang up the receiver and call again in a few minutes.

In some Central Offices, instead of the busy signal, a report will be received from the operator, as, "The line is busy."

No charge will be made for local calls to the listed number of the Telephone Company.

In case the coin is deposited and collected in error under the conditions referred to above, a report should be made promptly to the operator in order that the proper adjustment may be arranged, either by completing a local call at the time or subsequently, the charges for which will be covered by the amount collected in error. If it is not desired that adjustment be made by completing a local call at the time or subsequently, refund of the charges collected in error may be obtained at the time of the next box opening or by mail.

### THE RINGING SIGNAL

The ringing signal is a "burr-rr-ing" sound heard while the bell of the called telephone is ringing.

## Person-to-Person Service

*From One Person to Another*

### PERSON-TO-PERSON CALLS

A Person-to-Person call is one on which you specify a particular person to be reached at the called place or a particular station on a private branch exchange.

Person-to-Person service is available to all points except those to which "Number Service" is furnished exclusively, as indicated on pages X to XII, where the Person-to-Person rate is "Not Quoted." The rate for a completed Person-to-Person call is about one-quarter greater than the Station-to-Station Day rate. The rate for a completed appointment or messenger call is about one-half greater than the Station-to-Station Day rate. To make a Person-to-Person call ask for "Long Distance," and, for example, say to the operator, "I want to talk to Los Angeles, East 1002, Walter Jones. This is Main 1234, John Smith speaking." If a specific station on a private branch exchange is desired, say, "I want to talk to Los Angeles, Main 1000, Local 123. This is Main 1234, John Smith speaking."

### REPORT CHARGES

A report charge is made on Person-to-Person calls which cannot be completed for the following reasons:

1. The called party is not available at the called station, or refuses to talk, or to accept the charges on a collect call, and a report to this effect is given the calling telephone within one hour from the time the call is given to "Long Distance."
2. When the call is ready for completion the calling party is not available or refuses to talk, or no answer can be obtained from the calling station provided this report is obtained within an hour from the time the call is given to "Long Distance."

### Long Lines and International Telephone Service

Telephone service is available from your telephone to almost any point in the United States, Canada, Cuba, England, Ireland, Scotland, Wales and Germany, and to many of the important cities of Continental Europe, and of Mexico. Communication may be made to these points or information and rates secured by merely calling "Long Distance" in the usual way.

3. If an appointment call is not completed after the appointment has been definitely arranged with the called telephone.
4. If a messenger call is not completed after arrangements have been made to notify the called party to come to a telephone.

Reports will be given by the operator when obtained. Additional reports can be secured by calling "Long Distance."

A report charge, in addition to the charge for the call, is not made provided the call is completed on the day on which it is filed or the next day.

### COLLECT CALLS

A Collect Call is a request to have the charges collected at the called station. Such calls will be completed if the charges are accepted by the called party. Person-to-Person rates apply to collect calls to Pacific Coast points.

### APPOINTMENT CALLS

An Appointment Call is a Person-to-Person call on which communication is to be established at a specified time.

### MESSENGER CALLS

A Messenger Call is one on which it is necessary to send a messenger at the distant point to call a specified person to a telephone. The messenger charge (actual amount) must be guaranteed by the calling party and must be paid even though the desired conversation is not held.

## HOW TO MAKE OUT-OF-TOWN CALLS (To Pacific Coast Points)

Decide whether the Station-to-Station service can be used or whether the Person-to-Person service is desired. An explanation of these different classes of service is shown on this and succeeding pages.

If the Station-to-Station service is desired to a *Number Service* point listed in List "A" on pages X to XII.

1. Call the local operator and give her the telephone number desired.

Note: Station-to-Station calls, placed with the local operator, are accepted by number only.

2. Give your telephone number.
3. Wait on the line until the called telephone answers or until the operator gives you a report on the call.

If the Station-to-Station service is desired to *other* than Number Service points, call "Long Distance."

If the Person-to-Person service is desired, call "Long Distance."

If you can give the telephone number of the desired subscriber on a call placed through the long distance operator, your call can be handled more promptly.

When telephone numbers for out-of-town points not listed in your directory are desired, call "INFORMATION." Such telephone numbers should be listed for future reference in the space provided on page I.

If you wish to know the charge on an out-of-town call, time will be saved if you so state when you place the call. When you have finished the conversation and hung up the receiver, the operator will compute the charge and call you back.

Pacific Coast points include points in the States of California, Nevada, Oregon and Washington. Out-of-town calls to other than Pacific Coast points are made in the same manner as calls to Pacific Coast points. Rates to certain points are listed on pages X to XII. Additional information and rates concerning out-of-town calls may be obtained by calling "Long Distance."

### Station-to-Station Service

#### *From One Telephone to Another*

A Station-to-Station call is one on which you do not specify a particular person to be reached but give only the number of the telephone station desired or the name and address (or name only if address is not known) of the subscriber in whose name the telephone is listed. Station-to-Station service is available to all points. Calls asking for a connection with a specific station on a private branch exchange, and calls on which charges are to be collected at the called station, will not be completed as

Station-to-Station calls but can be completed at the Person-to-Person rate. To make a Station-to-Station call to other than a Number Service point ask for "Long Distance," and, for example, say to the operator, "I want to talk to Los Angeles, East 1002. This is Main 1234." If you do not know the telephone number, say to the operator, "I want to talk to Los Angeles, anyone at Mr. A. B. Brown's telephone, 123 First St. This is Main 1234."

### Reduced Evening and Night Rates

Rates on Station-to-Station calls to Pacific Coast points are less than the rates for other classes of service. Reduced Station-to-Station rates, known as Evening and Night rates, are in effect between 8:30 p. m. and 4:30 a. m. Evening rates are effective from 8:30 p. m. to midnight and are about one-half the Day rate. Night rates apply from mid-

night to 4:30 a. m. and are about one-fourth the Day rate. When the Day rate is 25c or less the Evening and Night rates will be the same. Evening and Night rates do not apply on Person-to-Person calls or on collect calls. In applying such rates, the time at the originating point when connection is established shall govern.

**“Half an Inch From the Telephone to be Heard Clearly”**

WHEN YOU speak clearly and distinctly into the telephone—directly into it instead of to the room at large—and with your lips about half an inch from the mouthpiece—you are doing three simple little things that will give your telephone voice force, dignity and carrying power. Your friends will appreciate it.
